#### SERVICES:

### We're With You From Start To Finish

Gartner is a refrigeration specialist with over 55 years design innovation and construction excellence. Key to our success has been our ability to adapt by providing solutions across a full spectrum of application situations.

**Complete Design** – Our design engineers are among the best in the business. Our expert design team will develop a custom solution that is not only a quality system, but with efficiencies that will save you money every year.

**Fabrication** – All systems are prefabricated in our certified UA shop. This assures a higher quality product that meets the required specifications and standards.

**Installation** – We have six field superintendents that are highly trained in pipefitting, advanced welding procedures, rigging and hoisting, and all are OSHA Safety Certified.

**Emergency Service** – Industrial ammonia and freon system service is available 24 hours a day, seven days a week.

**Compressor Rebuild Service** – Gartner offers factory-trained personnel, fast service, local start-up, oil and vibration analysis and a one year full parts and labor warranty.

**Vessel Repair** – Gartner has ASME National Board Certified technicians approved to repair, alter and construct new vessels.
