INSTALLATION OF SYSTEMS: Installation of Ammonia Refrigeration Systems

Gartner employs only skilled union welders and other installation specialists who have met tough ANSI certification standards. You can rest assured that your system has been put together with the highest mechanical integrity. We maintain a zero tolerance for leaks. All materials used are above current standards to help you meet ever tightening code requirements.

All construction projects are staffed with experienced journeymen tradesmen. **We have six Field Superintendents that are highly trained in:**

- Pipefitting
- Advanced Welding Procedures
- Rigging and Hoisting
- Industrial installations
- Emergency response certified
- OSHA Safety
- Jobsite organization
- Housekeeping practices

Gartner Construction Personnel are trained in:

- Blue print reading
- Pipewelding and fitting
- Vessel repair and alteration stamp "R"

ASME/National Board Certified:

- "R" Stamp (Repair, Alter and certify vessels)
- "U" Stamp (New and existing construction)
- "PP" Stamp (Power piping in ASME from boiler outlet to first isolation valve.)
